Tire Pressure Monitoring System	●

* Airbag Notice: The 2008 FJ Cruiser features a driver & front passenger airbag Supplemental Restraint System (SRS) which activates only in a full-frontal collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate; in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. The 2008 FJ Cruiser also features a front seat-mounted side airbag and front & rear head/side curtain airbag Supplemental Restraint System (SRS) which activates only in a side-impact collision of sufficient magnitude to inflate the bags. *Seatbelts must be worn at all times by all occupants.*
