* Airbag Notice: The 2006 Camry features a driver & front passenger airbag Supplemental Restraint System (SRS) which activates only in a full-frontal collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate; in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. The 2006 Camry also features a Front Seat-Mounted Side Airbag and Front & Rear Head/Side Curtain Airbag (XLE V6 only) Supplemental Restraint System (SRS) which activates only in a side-impact collision of sufficient magnitude to inflate the bags. *Seatbelts must be worn at all times by all occupants.*
