Ground Clearance	242 [9.5]			
Approach Angle	<i>(degrees)</i> 28			
Departure Angle	<i>(degrees)</i> 21			

¹Airbag Notice: The 2009 Sequoia features a driver & front passenger airbag Supplemental Restraint System (SRS) which usually activates in a full-frontal collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate; in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. The 2009 Sequoia also features a front seat-mounted side airbag and front and rear head/side curtain airbag Supplemental Restraint System (SRS) which usually activates in a side-impact collision of sufficient magnitude to inflate the bags. *Seatbelts must be worn at all times by all occupants.*

²These estimates are based on the Government of Canada's approved criteria and testing methods. The actual fuel consumption of this vehicle may vary. Refer to the Government of Canada publication *EnerGuide Fuel Consumption Guide*.

³Payload = Passengers, Equipment, Luggage and Cargo.

⁴Toyota tests certain phones for compatibility with Bluetooth® technology. Please see your Toyota Dealer for details. Note that the recommendation of Toyota is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the service coverage available in your area.

⁵The Toyota voice-activated DVD navigation system is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Changes in street names, road closures, traffic flow or other road system changes may affect the accuracy of the mapping software. Rely upon your common sense to decide whether or not to follow a specified route. Detailed coverage not available in every city. Optional periodic geographic updates available at an additional cost. See your Navigation System Owner's Manual and your Toyota Dealer for further details.
