\*Airbag Notice – The 2002 Prius features a driver & front passenger airbag Supplemental Restraint System (SRS) which activates only in a front-end collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate, in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. *Seat belts must be worn at all times by all occupants.*

\*\* Meets U.S. California Air Resources Board (CARB) Super Ultra Low Emission Vehicle (SULEV) standards.

<sup>†</sup> These estimates are based on the Government of Canada's approved criteria and testing methods. The actual fuel consumption of this vehicle may vary. Refer to the Government of Canada publication – EnerGuide Fuel Consumption Guide. *Canadian vehicles equipped with daytime running lights.*
